

World Games

It's not just fun and games at the Museum. Games have taught players important skills like hand-eye coordination, math, and critical thinking skills. Learn about the history of the game, grab a partner and face off.

About the Museum Experience

Museum Theme: Anthropology/Social Studies

Grades: Open to all grades

Duration: 30 minutes

Capacity: 30 per session, multiple sessions available for larger groups

(For pricing questions please see our FAQs)

Goals of the Experience:

- Students will learn about games around the world and how they are similar and different
- Students will understand that games taught skills that helped people in their daily life
- Students will engage in small groups to participate in playing games from different regions
