

Scientific Illustration

Tap into your inner artist. Using real specimens learn how to observe and sketch animals to help scientists capture information using drawings.

About the Experience:

Type of Station: Science and Art Station

Grades: Open to all grades

Duration: 20-30 minutes

Capacity: 30 per session, multiple sessions available for larger groups

(For pricing questions please see our FAQ)

Goals of the Experience:

- Students will engage in scientific observation and detailed drawing
- Students will make real world career connections with experiments done in the experience
- Students will engage in workshop generated conversations with teachers, other classmates and the facilitator
