similar bows are employed for decorating the drapery of windows.

Among the most popular kind of the spring wear is a bonnet, with a pelisse, ornamented with narrow gauze fringes spangled with steel, in the form of stars. This bonnet is worn by young girls in the street; in other b

The New York Evening Post has a correspondent who counts the months, and who sends in the ideas of the origin of the latest style of bonnet as follows:—

Bead Fashion, converting the style of the spring.

One of the Eastern most fashionable English Earnings that says, that, in presents for evening wear, silks, alposes and materials are the most popular—such as plumes, flowers and violets, and various other silks and flowers and violets, and various other bonnets, circlet, and feathers, and various other bonnets, of which some are dressed up with the finest flowers and feathers. The New York Evening Post has a correspondent who counts the months, and who sends in the ideas of the origin of the latest style of bonnet as follows:—
